Professional Summary

Technical Product Manager and Senior Software Engineer with experience delivering analytics platforms, SQL-backed systems, and scalable technical solutions across federal and commercial environments. Proven track record leading cross-functional delivery, optimizing data performance, and translating stakeholder needs into production-ready applications and analytics tools. Former U.S. Army officer with experience leading complex operational initiatives and high-visibility technical efforts.

Technical Skills

Programming Languages: SQL, JavaScript, Python, Java, C++, VBA

Frameworks & Web Technologies: Vue.js, React.js, ASP.NET, HTML, CSS, JSON, XML

Data, Cloud & Platforms: SQL Server, MySQL, AWS, Microsoft Azure, Power BI, Power Apps, Power Automate, REST APIs, Git, Docker

Certifications: CompTIA Cybersecurity Analyst (CySA+), Certified in Cybersecurity ISC2, PenTest+, PMP (2026)

Professional Experience

Project Lead / Full Stack Software Engineer

Analytica LLC (CDAO AI & Data Products - Defense Health Agency), 07/2025 – Present

- Led project delivery, stakeholder management, and full-stack development for a federal health analytics application, delivering production-ready features across frontend, backend, and data layers. (Awarded the 2026 Form Issuance Award).
- Integrated AI-driven natural language querying capabilities into analytics dashboards, enabling users to surface insights from structured and unstructured program data.
- Led product architecture, roadmap planning, and full-stack engineering for analytics applications built with JavaScript and Vue.js, reducing query response times by 18 to 27%
- Managed backlog prioritization, sprint planning, and stakeholder reviews across engineering and data teams to support iterative delivery of AI-enabled analytics platforms.

Lead Data Solutions Developer

Outten & Golden LLP, 3/2024 – 05/2025

- Led agile project management across-functional teams, working closely with multiple internal departments and end users to define project scope, timelines, and execute deliverables.
- Consulted with executive leadership and vendors, providing strategic technical insights to drive data-driven decisions and system improvements.
- Integrated third-party APIs and developed custom APIs to streamline automated data exchange, reducing processing time by 20%.
- Performed SQL Server database administration, optimizing indexing and query performance for business-critical systems.
- Optimized cloud infrastructure for improved performance and scalability with Azure Cloud Storage and AWS for data storage and cloud migrations.

Program Manager Captain, Logistics Officer

U.S. Army National Guard, 02/2014 – 06/2024

- Led operational planning and logistics coordination for cross-border missions involving U.S. and foreign government agencies, managing \$5.25M in equipment and assets.
- Developed and implemented standardized documentation procedures to meet international import/export requirements, preventing compliance and customs violations.

Data Analyst

Ingram Micro, 07/2022 – 02/2024

- Led a cross-functional team of 2-8 developers, overseeing project scope, cost analysis, and execution for application launches.
- Built enterprise-level web and mobile applications, leveraging MySQL for backend data management and API integrations.
- Designed interactive dashboards in Microsoft Power BI, enabling real-time analytics for 30,000+ users.
- Optimized database performance, reducing query response times by 35% across cloud and on-premises systems.

Business Analyst

Ingram Micro, 06/2021 – 07/2022

- Designed executive dashboards using Microsoft Power Platform, improving visibility into key metrics for stakeholders.
- Developed SQL queries to connect applications with relational databases, automating data workflows and reducing manual efforts for thousands of users

Cisco Support Representative II

Ingram Micro, 11/2018 – 05/2021

- Provide commercial support: act as the main point of contact for both customers and account managers regarding Cisco products and solutions.

IBM Market Development Specialist

Ingram Micro, 05/2017 – 09/2018

- Designed and implemented end-to-end SaaS solutions, leading coordination with vendor IBM to ensure alignment with client needs and business goals, increasing partner revenue by 12%.

Education

M.S. Cybersecurity and Information Assurance (2026)

- Western Governors University

B.S. Computer and Information Systems (4.0 GPA)

B.A. Sociology

- SUNY College at Buffalo
